

# ARMUS CLEANER

## FOR EXTERIOR & INTERIOR SURFACES

A fast-acting natural cleaner that removes residue, efflorescence, mold, and mildew from various surfaces.

### FEATURES

REMOVES MOLD & MILDEW

PRESERVES NATURAL LOOK

FAST-ACTING FORMULA

EASY TO USE

### SUBSTRATES

CONCRETE

BRICK & MORTAR

POROUS STONE

ROOFING

### PREVENTATIVE MAINTENANCE

MOLD & ORGANIC GROWTH

EFFLORESCENCE

HIGH CLEANING COSTS

### THE NANO-SCIENCE

ARMUS Cleaner is a fast-acting concentrated natural-acid effective in removing stains and organic growth, and salt deposits from efflorescence from a variety of surfaces. Its natural acid makes it suitable for use in food-processing facilities and other sensitive equipment as it leaves not residue on treated surfaces after thorough rinsing with water.

### APPLICATION

#### SURFACE PREP

- Wipe all surfaces clean of dust & debris.
- Wear protective gloves & gear before applying

#### APPLICATION

- Shake well prior to application.
- Rinse the stained surface with ARMUS Cleaner without dilution.
- For lightly stained surfaces, dilute with water up to 1:5 ratio.
- Wait for ARMUS Cleaner to act on the surface for 2-3 min.
- Remove residues by scrubbing with a hard sponge.
- Do NOT use a metal sponge to scrub surface.
- After residue removal, rinse surface thoroughly with water.

#### ESTIMATED CONSUMPTION

- Up to 325 sq.ft. per gallon, dependent on properties of surface.
